

State Hazard Mitigation Plan Advisory Committee Summary of May 14 Teleconference

The first topic on the agenda for this teleconference was a change in the plan's formatting. The short & long term goals sections have been merged into 1 section called Goals. Each goal will have objectives and action items. For each action item, lead agency, support agencies and a timeline will be listed. The Version 2 - Draft SHMP (available on the website) reflects this new format.

Discussion then changed to the new annexes (economic, ground failure, weather and erosion). DCED provided some comments on the economic annex. Aimee DeVaris will be providing comments on the weather annex. (Thanks to Aimee and NWS for writing most of that annex.) AC Brown is going to looking into getting erosion maps. Christy Miller will also be providing some additional erosion information. Please review these annexes and provide feedback when you have a chance.

We are still waiting for the Governor's approval of the plan. We expect to hear from his office after the legislature has adjourned.

The next teleconference is scheduled for July 25th at 10AM.

Meeting Adjourned.

Attendees:

Laurie Cummings, ADES
Christy Miller, DCED

Aimee DeVaris, NWS
Michele Anderson, Denali
Commission

Alan Wien, DEC
Tracy Matthews, MOA

AC Brown, USGS

****If your name is not on this list, and you attended the May 14th teleconference, please send me an e-mail.**

Next Meeting July 25 at 10AM.
